DENSITY

5.555 plants per hectare.

SOIL

Granite.

CLIMATE

Warm climate. 2010 vintage presented normal conditions, with an average annual rainfall of 700 mm, concentrated in the winter months.

HARVEST

The grapes were harvested on March 28th, 2010.

AGEING

The wine was aged for 24 months in old French oak barrels.

Nº BOTTLES AVAILABLE

4.000 bottles.

TASTING NOTE

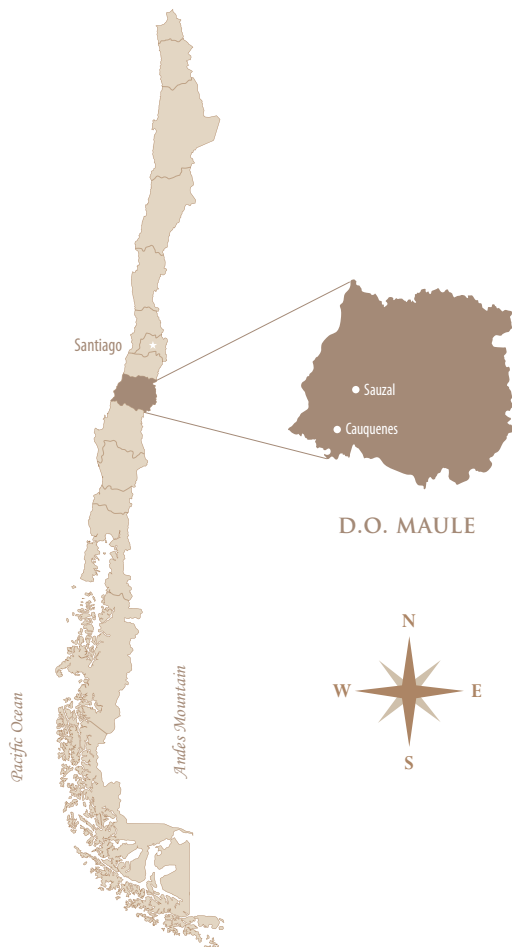

The weather in the dry lands of Maule was moderate in 2010. The summer was warm - without extreme temperatures - and the autumn was cool and dry. The resulting wines were ripe but fresh, with the acidity and ripe fruit nicely balanced. La Aguada 2010 is broad, ripe and long on the palate and the rusticity and acidity of the Carignan have been transformed into elegance and freshness.
